Item Five: Consider Approval of the Addition of an After-Tax Roth Option to the

Deferred Compensation Plan with Security Benefit, including a one-time Plan Amendment Fee of \$250, and Take Any Other Action Deemed

Necessary.

Mr. Sandefur made a motion to approve the addition of the after-tax Roth option to the deferred compensation plan with Security Benefit. His motion was seconded by Ms. Detten, and the motion passed by a vote of **8 For** and **0 Against**.

Item Six: Consider Approval of the *Draft 2025 Canadian and Red River Basins*

Summary Report, Dependent on Final Comments from the Texas Commission on Environmental Quality, and Take Any Other Action

Deemed Necessary.

The Board received an overview from Mr. Dan Medenwaldt, CRP Supervisor, on the Draft 2025 Canadian and Red River Basins Summary Report. He stated that once final comments have been received from the TCEQ, those would be included and submitted with the final report, which is due by May 31, 2025.

Following minor discussion, Ms. Detten made a motion to approve the *Draft 2025 Canadian and Red River Basins Summary Report*, Dependent on Final Comments from the Texas Commission on Environmental Quality. Her motion was seconded by Mr. Davis, and the motion passed by a vote of **8 For** and **0 Against**.

Item Seven:

Consider Approval of a Ranked List for Auditing Services Firm to be Utilized for the Next Period of Five Years, and Take Any Other Action Deemed Necessary.

Mr. Heaney provided a brief overview of the Request for Qualifications for an Auditing Services Firm. He noted that only one response was received, which came from the Authority's current auditing firm, Edgin, Parkman, Fleming & Fleming, PC. A brief discussion followed regarding the length of time the firm has served the Authority. Mr. Sandefur made a motion to approve the recommended firm for a five-year term. Mr. Ward seconded the motion, which passed unanimously by a vote of **8 For** and **0 Against**.

Item Eight:

Consider Adopting Resolution No. 2025-009 Approval of Amending Authorized Signers on the TexPool Account, and Take Any Other Action Deemed Necessary.

With the recent changes in staffing, it is necessary to update the list of individuals authorized to access and conduct transactions on behalf of the Authority through its TexPool investment account. This item seeks Board approval to remove former authorized signers who are no longer employed by the Authority and to add current staff members to ensure continuity of operations and compliance with financial procedures.

Sample motion:	
I move the Board to	approve amending the authorized signers on the TexPool account.

ITEM 7

Consider Resolution No. 2025-010, Adopting the New Wholesale Water Rate to be Charged to the City of Chillicothe, Texas, and Take Any Other Action Deemed Necessary.

The City of Chillicothe purchases water from the Greenbelt Municipal and Industrial Water Authority (GMIWA) through the Authority's lines. According to the contract, the cost is subject to adjustments based on any rate changes made by GMIWA.

Recently, GMIWA implemented a nine-cent reduction per 1,000 gallons of water. This reduction

is expected to result in a decrease in our costs ranging from \$15,000 to \$18,000. However, per the contract, this will lead to an approximate loss of \$890 in base revenue for Chillicothe.
Sample motion:
I move the Board to approve Resolution No. 2025-010 adopting the new wholesale water rate to be charged to the City of Chillicothe, Texas.

Re: Water Rate Adjustment

Honorable Mayor Young:

The City of Chillicothe is provided water by the Red River Authority of Texas (the Authority) from its Medicine Mound Water System for blending purposes. A contract was initiated between the City and the Authority in 2012, which determines the rate charged to the City, and is based on Greenbelt Municipal and Industrial Water Authority's rate charged to the Authority, which is set each June.

At its July 23, 2025 meeting, the Authority's Board of Directors reviewed and adopted a rate adjustment for the City of Chillicothe. The adjustment corresponds with the rates received by the Authority from Greenbelt Municipal and Industrial Water Authority on July 2, 2025.

Account No. 15-1001-50 City of Chillicothe (adjusted rate effective August 1, 2025)

Minimum: \$2,661.47 per month

Demand Block 1: 0.86 per 1,000 gallons up to 1, 000,000 gallons Demand Block 2: \$3.21 per 1,000 gallons > 1,000,000 gallons

Consider Authorizing the Expenditure of Funds from the TWDB Lockett Grant to Cover Engineering Costs and to Advertise for Bids for the RRA Lockett Water Tower and Waterline Replacement Project, and Take Any Other Action Deemed Necessary.

The Texas Water Development Board completed the close of the grant, and has transferred the \$2,484,000.00 to the escrow account. At this time, the Authority may begin expenditures on the project. We need authorization to move forward with the completion of the engineer design for the 8" waterline, and the elevated water tower, and also to advertise the project for bid. The following pages contain the preliminary engineering cost estimates.

ITEM 10

Receive a Recommendation from the General Manager, and Consider Approval of Proposed Revisions to the Authority's Pension Plan with TCDRS, and Take Any Other Action Deemed Necessary.

TCDRS has conducted a thorough Economic Rate Modeling Study to evaluate options that incorporate an 8-year vesting period and a 200% employer match at elected rates of 0%, 3%, and 6% as noted in the following pages.

Scenario 6 of the analysis highlights a path for the Authority to consider, which would result in significant cost savings to the Authority, by the adoption of a 0% elected rate. This option would allow the Authority to eliminate employer contributions, perhaps indefinitely. In the current fiscal year, the Authority is projected to contribute approximately \$174,000.00. In the next fiscal year, the Authority has a preliminary budget estimate of \$197,000.00. Under this same Scenario, employee contributions would remain at 7%, while decreasing the vesting period to 8 years, and increasing the employer match to 200% at retirement.

Notably, this Scenario remains fully funded under both average and favorable market conditions. The projections indicate that no additional contributions would be needed until 2029, and only in the unlikely event of unfavorable market conditions. This essentially would make the pension an employee-only funded plan. By moving our vesting and match to where the majority of other plans are in the State, this Scenario would also make us more competitive in the job market.

It is the recommendation of the General Manager that the Authority revise its TCDRS plan to include 8-year vesting, 200% employer matching at retirement, and a 0% elected rate from the Authority. This is a cost savings opportunity that allows the Authority to redirect those funds to other operational or capital needs.

Economic Rate Modeling Study

Reasons for economic rate modeling studies

As plans mature, they accumulate assets. This is a good thing because you want your plan assets to grow. Asset growth is essential for funding your benefits. However, as your plan becomes more mature and your assets grow, your rate will be more volatile from year to year. Economic rate modeling studies can help you understand potential rate volatility and strategies to help you reduce this volatility. They can help you to:

- Get an idea of how much your rate might change from year to year under different economic scenarios
- Determine how likely it is that an elected rate will hold
- See how elected rates and benefit changes can impact future rate stability

Please note that these projections are estimates, your actual rates will depend on future actuarial valuations based on your plan of benefits, plan assets and your plan participants. In addition, the further the projections are from the present, the more uncertain and less reliable the estimates are.

How we estimate the results

We generate potential investment results based on our portfolio using capital market assumptions that are updated annually and published on www.TCDRS.org. Those assumptions, which are created with guidance from outside investment advisors, are forward-looking expectations of the return, the risk of each of our asset classes and the correlation of returns between assets classes.

We run thousands of simulations and provide investment results at the 25th, 50th and 75th percentiles based on our current portfolio. For example, the 75th percentile represents a down market scenario, meaning we expect that there is a 75% chance that actual returns will be greater than the modeled returns. The 25th percentile represents an up-market scenario.

When performing this study, we made the following assumptions:

- No changes in your plan of benefits, unless indicated in the results. One of the strengths of your TCDRS plan is that you can reduce benefits and costs during economic downturns. This gives you an excellent built-in tool to manage costs while still providing secure retirement benefits to your employees.
- No changes in TCDRS' current asset allocation and current capital market assumptions. The TCDRS
 board routinely adjusts the asset allocation and capital market assumptions to meet long-term goals
 and to manage year-to-year risk as the markets change.
- Assumptions and methods are consistent with those used in the Dec. 31, 2024 actuarial valuation.
- No demographic gains or losses, for example, actual mortality that is different from the assumed.

Economic Rate Modeling

- * As your plan matures, the assets grow large relative to your payroll.
- * This is a good thing because asset growth is essential for funding your benefits and higher growth lowers your overall rate.
- ★ However, maturing does mean that your rate will be more volatile from year to year.
- * This is because variation in investment results on your larger pool of invested assets is absorbed by your relatively smaller payroll.

Rate Modeling Studies

Can help you:

- change under different economic scenarios * Get an idea of how much your rate might
- * Determine how likely it is that an elected rate will hold
- * See how elected rates and benefit changes can impact future rate stability

Other Considerations

There are significant risks associated with adopting a benefit increase

- * A rate increase due to a benefit increase will lower than expected investment returns stack on top of any rate increase due to
- retroactive benefit increases such as a retiree * If your payroll declines, it will take a greater portion of your payroll to pay for any COLA or a matching rate increase

Assumptions

- * This study assumes the following:
- No changes in benefits, except as indicated in your study
- No changes in TCDRS asset allocation
- No changes in the capital market assumptions
- * The further the projection is in the future, the more the uncertainty

Economic Rate Modeling

- * Models rates under various economic scenarios.
- assumptions are forward-looking projections capital market assumptions. Capital market * Uses TCDRS' current asset allocation and of the expected return, volatility and correlation of every asset class.
- * Runs thousands of multiyear simulations to determine up, average and down market investment return scenarios.

CHAPTER 1

1.3.20 General Attitude

One of the most essential attributes of any job with the Authority is the general attitude expressed toward the public, the assignment, and other employees, together with the ability to understand and follow instructions in a team-like manner. An employee's basic attitude affects all those encountered. Each employee shall do his or her part in order to provide a conducive atmosphere in which to work. All employees are expected to conduct themselves with the best interest of the Authority and the public in mind, while adhering to the guidelines and procedures set forth by the Authority's General Policy. Opportunities for advancement will depend greatly upon an employee's expressed attitude.

1.3.21 Reports

The Authority is responsible for the operation of all its activities first to the Directors, to other state agencies, and to the public. The filing of reports is necessary for the proper operation of the Authority. As an employee, it is essential that accurate, informative, and punctual reports be filed according to various responsibilities. Supervisors will instruct employees as to the proper procedures in compiling and punctual filing of any reports that may be required.

1.3.22 Payroll Intervals

The Authority authorizes payment of the payroll twice per month. All classified employees shall complete the *Authorization Agreement for Direct Deposit* with the required accompanying documentation to be properly set up at the employee's bank for all payroll checks to be directly deposited into the bank account so selected by the employee. Acknowledgment of the direct deposits is issued on the fifteenth and last day of each month. If those dates fall on the weekend or a scheduled holiday, the direct deposits will be issued to the bank on the day immediately preceding the weekend or holiday.

1.3.23 Payroll Deductions

Federal employee withholding and social security contributions will be deducted automatically each pay period. The amount of each contribution or deduction will be made in accordance with the current rates in effect, and will be calculated on the gross earnings. Group insurance, and other authorized deductions may be made from gross payroll at the employee's option. Any deductions other than the described mandatory deductions must be approved by the Controller.

1.3.24 Retirement Plans

All classified employees of the Authority who receive compensation for personnel services by a certified payroll warrant shall participate in the Texas County and District Retirement System (TCDRS). The contribution is calculated at the rate of seven percent (7%) of the employee's gross salary. The Authority may match the employee's contribution up to 100%, pending Board of Directors approval.

Deleted: , and is matched 100% by the Authority

CHAPTER 1

The contributed funds are held by TCDRS, and the employee will receive a statement of his or her deposits and interest earnings annually. Participating employees shall be deemed vested after <u>eight</u> consecutive years of service to the Authority. Retirement eligibility is determined by the "Rule of 80", where the sum of the employee's age and tenure must total 80 years, or by the employee reaching 30 years of service, or the employee reaching the age of 60 with 10 years of service. The total retirement benefit is <u>200</u>% of the total contribution amount in the employee's account.

Should an employee leave the Authority before attaining retirement criteria, the employee may only receive the total employee's contribution plus accrued interest earned.

The Authority also offers a 457 deferred compensation plan from Security Benefit. This plan is strictly voluntary and is offered upon employment. Additionally, enrollment and changes to the plan are allowed during open enrollment, which is the first two weeks of each month during the calendar year. The Authority does not contribute to this plan, nor does it manage the plan. All investment changes are strictly between the employee and the Plan's representative. Additional information on the plan options can be obtained by request.

The General Manager and senior management shall prepare for future retirements and workforce changes by ensuring position classifications are reviewed or updated annually, and by making succession plans for key staff and personnel.

1.3.25 Medical Insurance

Classified full-time employees (FTEs) will be covered under a group medical insurance and dental program, if available, following two full months of employment. Each FTE shall be provided a current schedule of benefits and claim procedures at the time of employment. It is the employee's responsibility to ensure all eligible claims are filed with the insurance company. FTEs may elect to carry their dependents under the same group insurance program at the rate adopted by the Authority. Dependent coverage for an FTE is also available following two full months of employment. Other supplemental coverages may be available on a voluntary basis.

An employee who has met the retirement criteria listed in Section 1.3.24, is under the age of 65, and elects to retire may join a Pre Sixty-Five Retiree Health Plan, if offered by the current health insurance carrier at the time of retirement, until the retiree reaches the age of 65 years or becomes enrolled in any other type of medical insurance such as Medicare, whichever occurs first. The cost of the Pre Sixty-Five Health Insurance Plan will be 100% of the retiree's responsibility. This entitlement is totally dependent upon the insurance carrier's policy toward retirees. Only employees who separate from the Authority through retirement are eligible to participate. Terminated or voluntary resignations are not eligible. An employee who separates employment under any condition will be provided the opportunity to retain all or part of the group insurance at his or her own expense and at the Authority's current rate for a period not to exceed eighteen (18) months.

Under certain circumstances, an additional six (6) months extension may be granted to qualified applicants under the Consolidated Omnibus Budget Reconciliation Act of 1985.

ITEM 12

Consider Authorizing the General Manager to Negotiate and Execute a Supplemental Easement Agreement for the Benefit of Southwestern Electric Power Company in the Amount of \$2,000.00, and Take Any Other Action Deemed Necessary.

The Authority owns property located within the area impacted by Southwestern Electric Power Company's (SWEPCO) Clarendon to Jericho Transmission Improvements Project. This project involves the rebuilding of approximately 20 miles of 69-kilovolt transmission line to improve system reliability and meet updated safety standards.

As part of this effort, SWEPCO has submitted a supplemental easement offer in the amount of \$2,000.00. The proposed agreement is intended to accommodate revised design specifications and ensure the safe construction, operation, and maintenance of the upgraded transmission line across Authority-owned land.

Approval would enable the General Manager to finalize and execute the supplemental easement agreement and take any additional actions necessary to complete the process.

Sample Motion: I move the Board to authorize the General Manager to negotiate and execute the supplemental easement agreement for the benefit of SWEPCO. Second _______ Vote for _____ against _____.

IMPORTANT MESSAGE ABOUT YOUR PROPERTY

The Red River Authority of Texas P. O. Box 240 Wichita Falls, Texas 76307

Re: Clarendon to Jericho - Supplemental Easement Offer

Dear Neighbor,

You are receiving this letter because you own property or live in the area that's part of Southwestern Electric Power Company's (SWEPCO) Clarendon to Jericho Transmission Improvements Project.

The project involves rebuilding about 20 miles of 69-kilovolt transmission line in the Clarendon area.

In preparation for this project, SWEPCO representatives look to supplement an existing easement on your property to meet updated standards for the safe construction, operation and maintenance of the transmission line.

As part of this process, SWEPCO representatives ask that you please:

- Review the enclosed Supplemental Easement Offer, which modifies the company's rights on your property
- Review the enclosed Survey Exhibit, which displays the approximate location of the easement
- Review the enclosed Easement Payment Schedule, which includes SWEPCO's offer based on its assessed value, and W-9
- Complete the enclosed ROW Information Checklist, which alerts us to gates, pets, children, septic systems and other things on your property that we should be aware of

Percheron serves as SWEPCO's right-of-way representative for this project. An agent plans to contact you soon to discuss your offer.

After talking with an agent, please sign and date each document, have the Supplemental Easement Offer documents notarized, and return all documents in the enclosed self-addressed, stamped envelope. You can then expect a check in the agreed-upon amount, along with a copy of the fully executed easement documents.

Please contact me at 432-967-9088 or james.fox@percheronllc.com if you have any questions. Thank you in advance for your prompt response.

Sincerely,

Hoot Fox
